

# Subjects

## Accessory dwelling units

valuing properties with accessory dwelling units, 297-309

## Agricultural land

measuring effects of high-voltage transmission lines on agricultural property, 30-45

## Apartments

stigma effects of death in Hong Kong apartments, 330-335

## Appraisal Institute (AI)

frequently asked questions on AI candidate for designation program, 158-161

Guide Note 12: *Analyzing Market Trends*, 248-253

new candidate for designation program as path to designated membership, 157-158

## Appraisal reports

appraisal reports prepared for litigation, 210-216, 217-222, 283-296

## Awards

Appraisal Journal Outstanding Service Award, iii (Spring)

Armstrong/Kahn Award, v (Spring)

Ratcliff Award, viii-ix (Spring)

Swango Award, vi-vii (Spring)

## Basements

approaches to valuing basements and below-grade areas, 198-204

## Best practices

best practices when preparing expert testimony, 217-222

## Candidate for designation

Appraisal Institute new candidate for designation as path to designated membership, 157-161

## Commercial property

feasibility study and market analysis of indoor waterpark resorts, 149-155

measuring revenue enhancement value of a hotel brand, 223-234

## Comparable sales

delineating subject property's submarket to ensure appropriate comparable selection, 122-129

distinctions among comparables in distressed markets, 140-147

Fannie Mae guidelines on REO appraisals and selection of comparables, 145-147

## Contingent valuation

history of contingent valuation, 206-208

using contingent valuation to measure effects of environmental contamination, 205-209

## Convenience stores

valuation of convenience stores with a retail fuel component, 61-76

## Court cases

recent state court decisions, 1-7, 91-97, 181-186, 267-272

## Distressed markets

Appraisal Institute Guide Note 12: *Analyzing Market Trends*, 248-253

distinctions among comparables in distressed markets, 140-147

market conditions adjustments for residential development land in a declining market, 54-60

## Energy-efficient buildings

valuation of green homes using Fannie Mae Form 1004MC and the Residential Green and Energy-Efficient Addendum, 21-29

## Environmental contamination

measuring effects of environmental contamination, 205-209

## Externalities

measuring effects of high-voltage transmission lines on mixed-use property, 30-45

## Expert testimony

elements and considerations in litigation appraisal assignments, 210-216

practical guide to providing expert testimony, 217-234

## Fannie Mae

Fannie Mae recommended use of foreclosures as comparables 145-146

focus on buyer pool in Market Conditions Addendum of Fannie Mae Form 1004MC, 123

problematic Fannie Mae guidelines on REO appraisals and selection of comparables, 145-147

valuation of green homes using Fannie Mae Form 1004MC and the Residential Green and Energy-Efficient Addendum, 21-29

## Feasibility

how to perform a waterpark feasibility study, 149-155

## Foreclosure sales

distinctions among comparables in distressed markets, 140-147

Fannie Mae recommended use of foreclosures as comparables 145-146

## Gas stations

valuation of convenience stores with a retail fuel component, 61-76

## Government-sponsored enterprise (GSE)

Fannie Mae recommended use of foreclosures as comparables 145-146

focus on buyer pool in Market Conditions Addendum of Fannie Mae Form 1004MC, 123

problematic GSE guidelines on REO appraisals and selection of comparables, 145-147

## Green property

valuation of residential green properties, 21-29

## High-voltage transmission lines

measuring effects of high-voltage transmission lines on mixed-use property, 30-45

## Hong Kong

stigma effects in Hong Kong apartments, 330-335

## Hotels

feasibility study and market analysis of indoor waterpark resorts, 149-155

measuring revenue enhancement value of a hotel brand, 223-234

## Housing markets

cascading residential markets exist where submarket price ranges overlap, 125-128

consistent mathematical representation of home sales as indicative of subject property's submarket, 125-128

neighborhoods not always an indication of submarket for selection of comparable sales, 123-126

potential purchasers of property as component of overall housing market, 124-128

properties must reasonably fit the same market model to be in the same overall market, 125-126

purchasers' price ranges create housing submarkets, 125-128

#### **Income capitalization approach**

economic value of waterpark calculated through discounted cash flow from income capitalization approach, 153-154

using the income capitalization approach in valuation of accessory dwelling units, 297-309

#### **In-law apartments**

valuing properties with accessory dwelling units, 297-309

#### **Intangible assets**

measuring revenue enhancement value of a hotel brand, 223-234

#### **International appraising**

housing market developments in Europe, 114-121

stigma effects in Hong Kong apartments, 330-335

#### **Land**

market conditions adjustments for residential development land in a declining market, 54-60

valuation of vacant land, 310-317

#### **Litigation**

factors an appraiser needs to consider before accepting a litigation assignment, 210-216

practical guide to litigation valuation and expert testimony, 217-222

valuation in matrimonial dissolution cases, 283-296

#### **Mark-to-market**

daily valuation of real estate in commingled investment funds, 130-138

#### **Market analysis**

Appraisal Institute Guide Note 12: *Analyzing Market Trends*, 248-253

cascading markets exist where submarket price ranges overlap, 125-128

consistent mathematical representation of sales as indicative of subject property's submarket, 125-128

market analysis of hospitality and waterpark market in waterpark feasibility study, 151-152

neighborhoods not always an indication of submarket for selection of comparable sales, 125-126

potential purchasers of property as component of overall market, 124-128

properties must reasonably fit the same market model to be in the same overall market, 125-126

purchasers' price ranges create submarkets, 125-128

#### **Market modeling**

properties must reasonably fit the same market model to be in the same overall market, 125-126

#### **Market value**

daily valuation of real estate in commingled investment funds, 130-138

daily valuation methodologies including accrual basis and cash basis methodologies, 132-134

definition of market value and selection of comparables in distressed markets, 140-147

#### **Mineral rights**

measuring the effects of mineral interests on land appraisal in shale gas regions, 318-329

#### **National Council of Real Estate Investment Fiduciaries (NCREIF)**

NCREIF Valuation Committee meeting notes, 340-342

NCREIF and Real Estate Information Standards, 130-131

NCREIF Property Index Trends in amplitude and duration of real estate cycles, 136

#### **Neighborhoods**

neighborhood analysis in waterpark feasibility studies, 150

neighborhoods not always an indication of submarket for selection of comparable sales, 123-126

#### **Net asset value (NAV)**

anticipated capital expenditures require adjustments to avoid double counting in NAV calculation, 133

discrepancies in NAV if true up only made on quarterly basis, 135

real estate fund unit prices established based on net asset values determined through appraisal process, 131

#### **Real Estate Information Standards (REIS)**

REIS requirements for valuation of commingled funds, 130-131

#### **Real Estate Investment Trusts (REITs)**

new REIT types with commingled assets require daily valuation of real estate assets, 130-138

#### **Regression analysis**

using price-quality regression to analyze comparable sales, 310-317

#### **Residential property**

approaches to valuing basements and below-grade areas, 198-204

housing market developments in Europe, 114-121

market conditions adjustments for residential development land in a declining market, 54-60

measuring effects of high-voltage transmission lines on rural residential tracts and subdivisions, 30-45

measuring effects of seasonality on home prices, 46-53

valuing residential properties with accessory dwelling units, 297-309

#### **Richard Ratcliff**

Richard Ratcliff and weighted attributes in comparable sales analysis, 305-306

Richard Ratcliff as proponent of most probable selling price as appraisal value, 100, 165

#### **Rural land**

measuring effects of high-voltage transmission lines on agricultural and rural residential property, 30-45

#### **Scholarships**

announcement of winners of Appraisal Institute Education Trust scholarships, 343

#### **Shale**

measuring the effects of mineral interests on land appraisal in shale gas regions, 318-329

#### **Stigma**

stigma effects of death in Hong Kong apartments, 330-335

#### **Surveys**

USPAP Advisory Opinion 9 and contingent valuation in measuring environmental risk, 205-209

#### **Transit corridors**

history and valuation of transit corridors, 235-247

#### **Uniform Standards of Professional Appraisal Practice (USPAP)**

USPAP Advisory Opinion 9 and contingent valuation in measuring environmental risk, 205-209

USPAP rules related to analyzing market trends, 249

USPAP scope of work and daily valuation of real estate in commingled investment funds, 137

USPAP scope of work and valuation of mineral interests, 322

USPAP standards related to litigation assignments, 210-216

#### **Vacant land**

market conditions adjustments for residential development land in a declining market, 54-60

valuation of vacant land, 310-317

## Cases in Brief

- Airport property may properly be designated as open space, 6-7
- All factors contributing to diminution of market value of remainder property are relevant in measuring damages in partial takings case, 94
- Appraisal of real property must meet all substantial requirements to allow for charitable contribution deduction, 267-268
- Appraisal process required by insurance policy is condition precedent to insured's ability to file suit against insurer, 270-271
- Appraiser's determination of value must be based on actual assessment, not on experience alone, 1-2
- Appraiser's expert opinion supported court's conclusion that foreclosure sale brought true market value of property, 5-6
- Appraiser's use of listing price in appraisal did not chill homeowner's right to free speech, 93-94
- An appraiser's reservations about assumptions for highest and best use of undeveloped land will not render the appraiser's valuation testimony irrelevant, 270
- Certified appraisals submitted by taxpayer for values of real property are adopted by default when board of tax assessors failed to meet statutory deadline to accept or reject appraisals, 178
- Closing highway interchange constitutes compensable taking if right of access had been used to mitigate damages in prior condemnation, 4
- Compensation for obstruction of access to public highway occurs only when access to existing roadway is denied or limited by governmental taking, 95-96
- Compound interest on damages is required to fairly and justly compensate landowner in lengthy eminent domain proceeding, 6
- The court will not permit reformation of marital agreement unless it finds mutual mistake, 271-272
- Diminution in value damages may be allowed for flooded property but amount of damages must withstand sufficiency challenge, 182-183
- District court does not have authority to modify requirement that notice of appeal of appraisers' award must be filed within 30 days of filing appraisers' report, 269
- Fair market value of condemned property is at highest and best use on date of taking, even if owner did not use property to full potential, 2-3
- Government-owned land leased to private parties may be assessed for ad valorem taxes, 177
- Judgment on prior eminent domain action does not preclude landowner's inverse condemnation claim, 4-5
- If there is significant time lapse between valuation date and actual date of taking, the court-determined valuation may no longer constitute just compensation, 180-181
- Income evidence generally not admissible for establishing property values in condemnation cases involving commercial enterprises, 181-182
- In ordering confirmation of foreclosure sale, it is a trial court's discretion to weigh credibility of expert appraiser's opinion, 268-269
- Landowner who fails to provide evidence of fair market value at trial not entitled to reconsideration of just compensation award, 91-92
- Motel owner not entitled to economic damages for loss of access after state lengthened access route, 92-93
- Native American tribe's sovereign immunity not implicated in eminent domain action against land acquired on open market, 91
- Only value of special benefit, but not general benefit, may offset award for damage to remainder, 180
- The phrase "amount of loss," as it relates to an appraiser's authority, unambiguously permits the appraiser to determine the cause of loss, 267
- Property sales that occurred after town-wide reappraisal could not be used to establish valuation, 272
- Property value is determined in light of purpose of valuation and proposed disposition or use, 94-95
- A recent, voluntary arm's-length transaction, while not conclusive, is persuasive of market value, 962-97
- Ripened prescriptive easement appurtenant is not extinguished by tax sale of servient estate, 3-4
- Tax court required to explain reasoning for rejecting expert appraisal testimony in favor of party's proposed valuation, 179-180
- When court orders distribution of award from eminent domain proceeding, it may only award funds to parties in interest from that eminent domain proceeding, 178-179
